

Premier is a modern integrated trunking system which provides the means to distribute power, data and telecom services around buildings.

A wide range of snap fit mouldings, including reducers, make it easy to run continuous lengths of trunking as cable feeders and, where required, to provide dado trunking with the necessary power, data and telecom outlets. The MK Aspect and Logic Plus accessory ranges complement the style and finish of Premier Trunking.

Simple, clean lines

Stylish and unobtrusive finish

Wide range of integrated components

Maximises versatility in application

Clip-on covers provide continuous access for wiring modifications

Easy to assemble and install

Data corners provide 32mm radius compatible with Cat5e data cables

Enables data cables to perform to their maximum capabilities

Tapered joints provide complete protection at junctions masking cut ends

Uniform and neat finish to any installation

Made from 100% PVCu

Premier is both robust and easily workable on site

Components are available in a choice of over 180 RAL paint colours. Specify your choice when ordering.

Reducers are used to connect different sizes of trunking.

Adaptors provide integration with Ega Mini and Communication Trunking for local distribution.

Moulded flat cross available for all distribution trunking.
